## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

Claims 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 is vague and indefinite as to what type of material is intended by "punching sheet". The specification equates the "punching sheet" with a mesh material and for the purposes of examination has been interpreted as a hydrophilic sheet.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2-3,6-10 and 13-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kearns et al.

Kearns et al. teach a device having a support (50) in the form of a microtiter plate comprising an absorbent substrate (52) in surface (53) where there is a plurality of wells (54) bound by circular walls (55). Each well (54) includes a surface (56) that accepts the sample and reagent. The absorbent substrate is described in column 5 lines 25 through column 6 as hydrophilic and being made a mesh to which reagents are attached. The claimed water impermeable support has been read on the taught microtiter plate, the claimed compartments on the taught wells, the claimed hydrophilic bottom surface/mesh on the taught absorbent material/mesh.

***Claim Rejections - 35 USC § 103***

Art Unit: 1743

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 4-5 and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kearns et al.

See Kearns et al. supra.

Kearns et al. is silent to the claimed tetragon and hexagon shapes.

The court decided In re Dailey (149 USPQ 47) " the configuration of the container is a mere matter of choice not significant" to define over art that has the same elements but a different shape. Hexagonal and tetragon shapes have the advantages of minimizing the void volume between adjacent plates by the fact they fit together well.

It would have been within the skill of the art to modify Kearns et al. and use a tetragon or hexagon shape for the plate to minimize the void volume between interconnecting plates because the configuration of the plate is "mere matter of choice".

### ***Response to Arguments***

Applicant's arguments with respect to claims 2-14 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1743

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
